HDMI cable 1.4V for 3D 1080P

Model: HDMI-3
3Meters

Specification:

AWG: 14 + 1 CCS copper clad steel 30#
Black smooth surface OD: 7.2.
Length: 3M
Terminal: copper case gold-plated hardware terminal

Description:

● Support 3D/1080P
● Audio video synchronization
● A premium performance quality HDMI cable suitable for use in HDTV, Home Theatre, PlayStation 3, and business class projector applications.
● Gold-plated connectors for highest signal transfer rate and resistance in corrosion.
● Large gauge PVC jacket provides maximum shielding against wear and tear and extreme temperatures.
● Reinforced quad-layer braided shielding and Mylar-foil shielding provides utmost protection against RF and EM interference.
● Moulded strain-relief design lessens plug/socket pressure.
● Supports 480i, 480p, 720p, 1080i, 1080p.

Notes:
Even though HDMI cables support Hot Plug Detection, improper usage might result in
resetting / restarting both devices, or even may cause damage to the devices.
Therefore, we do not suggest Hot Plug action for any HDMI cables. Please make sure
both input and output devices are off when plugging or unplugging HDMI cables.
