

RJ45-Cat6 EZ Connector

Model: RJ45-C-6

EZ Pass Through END

Compatible with any Ethernet Port

Features:

50 micron gold-plated contacts on 8P8C network connectors provide superior transmission and resist corrosion;
3 prong contact blade suitable for both solid and stranded cable;
Cost-effective modular plugs provide enough connection for a large project or multiple small jobs;
Construct multiple patch cables in the perfect length for router, patch panel, or workstation applications;
Crimp style plugs terminate stranded cable with two point staggered contacts to provide a secure connection;
Compatible with different lan cables;
RJ45 colored strain relief boots protect the clip from accidental damage and bolster the integrity of the cable.

Technical Parametres

Cable plug strength: Min 250pounds
Durability: Min 750mating cycles
Insulation resistance: 100MΩmin(25°C)
Contact resistance: 20MΩmax
Dielectric Withstanding voltage: 500 VOLTS AC
